

I am writing in regard to your new LPFM service, I understand that if this is enacted there is a possibility that I might lose KLOV radio programming. I do not want that to happen, KLOV is a positive resource for this community and to myself and family. Listener supported (myself included) good clean radio, even children enjoy listening and ask to turn up the volume so they can hear better. There are few safe places for families to turn to. Positive listening influences people and makes for positive people. Please do not remove KLOV from the airways. Thank you, Nancy Weyers
